Welcome to another year ... another fresh start, another grand opportunity to reach our goals, another chapter in this wonderful thing called LIFE!

2021 was quite a year, but it offered a glimpse of promise as things slowly ventured back to normal. While today's "normal" is quite different from yesterday's "normal", 2021 did allow for the ease of restrictions related to COVID. While the restrictions varied based on what country you resided, we saw an increase of gatherings, promo events, photo shoots, and other face-to-face networking.

We were fortunate, and grateful, to be able to release 12 issues of Flyrt Magazine in 2021! Our wonderful

team never missed a month ... in fact, we were able to publish twice monthly in some cases, thanks to the plethora of submissions we received!

Another accomplishment was our ability to expand our global reach, which now includes networking with models and photographers in USA, UK, Canada, Italy, and Singapore.

Last, but not least, was the approach to our subscription-based model. Now, once you subscribe for one low price, you will gain access to our entire library of publications ... over 20 issues featuring the world's hottest glamour and nude models!

flyrt

noun
a model who has one of the world's sexiest bodies.

"My sexiest feature? *I prefer the back and the bottom of the body (ass) ... "*

I'm an Italian sexy star and I gladly entertain the public with my erotic shows around Italy, in the most famous Italian nightclubs. At the same time, I enjoy giving new shots to my fans. I also worked in the past as a model and image girl, and I participated in numerous beauty contests such as Miss Mondo, Miss International, Miss Pandemic-time ... bringing home various awards.

How long have you been modeling?

At the age of 8-years-old, modeled for little girls beach costume. My first calendar was made in bikini at the beach and sold at the age of 14-years-old, because I wasn't already much different from now.

Who or what inspired you to start modeling?

I don't know. I have not looked for this path, but it happened to me... life on several occasions has led me to meet people who have noticed me and seen potentials congenial to their projects. I am moody and my mood can often be seen from the various shoots in which I look like different people, I define myself as complex and chameleonic. I don't have a particular source of inspiration, I always do only what I like to do and makes me feel good at the same moment.

How would you describe your modeling style?

Sensual and feminine, I like glamour style.

What is your most memorable moment as a model?

When in 2011, I arrived as a finalist at the beauty contest Miss International. Also, when I appeared in magazines such as For Man, Playboy Italy, Interviú Spain.

What are your modeling goals, short-term and long-term?

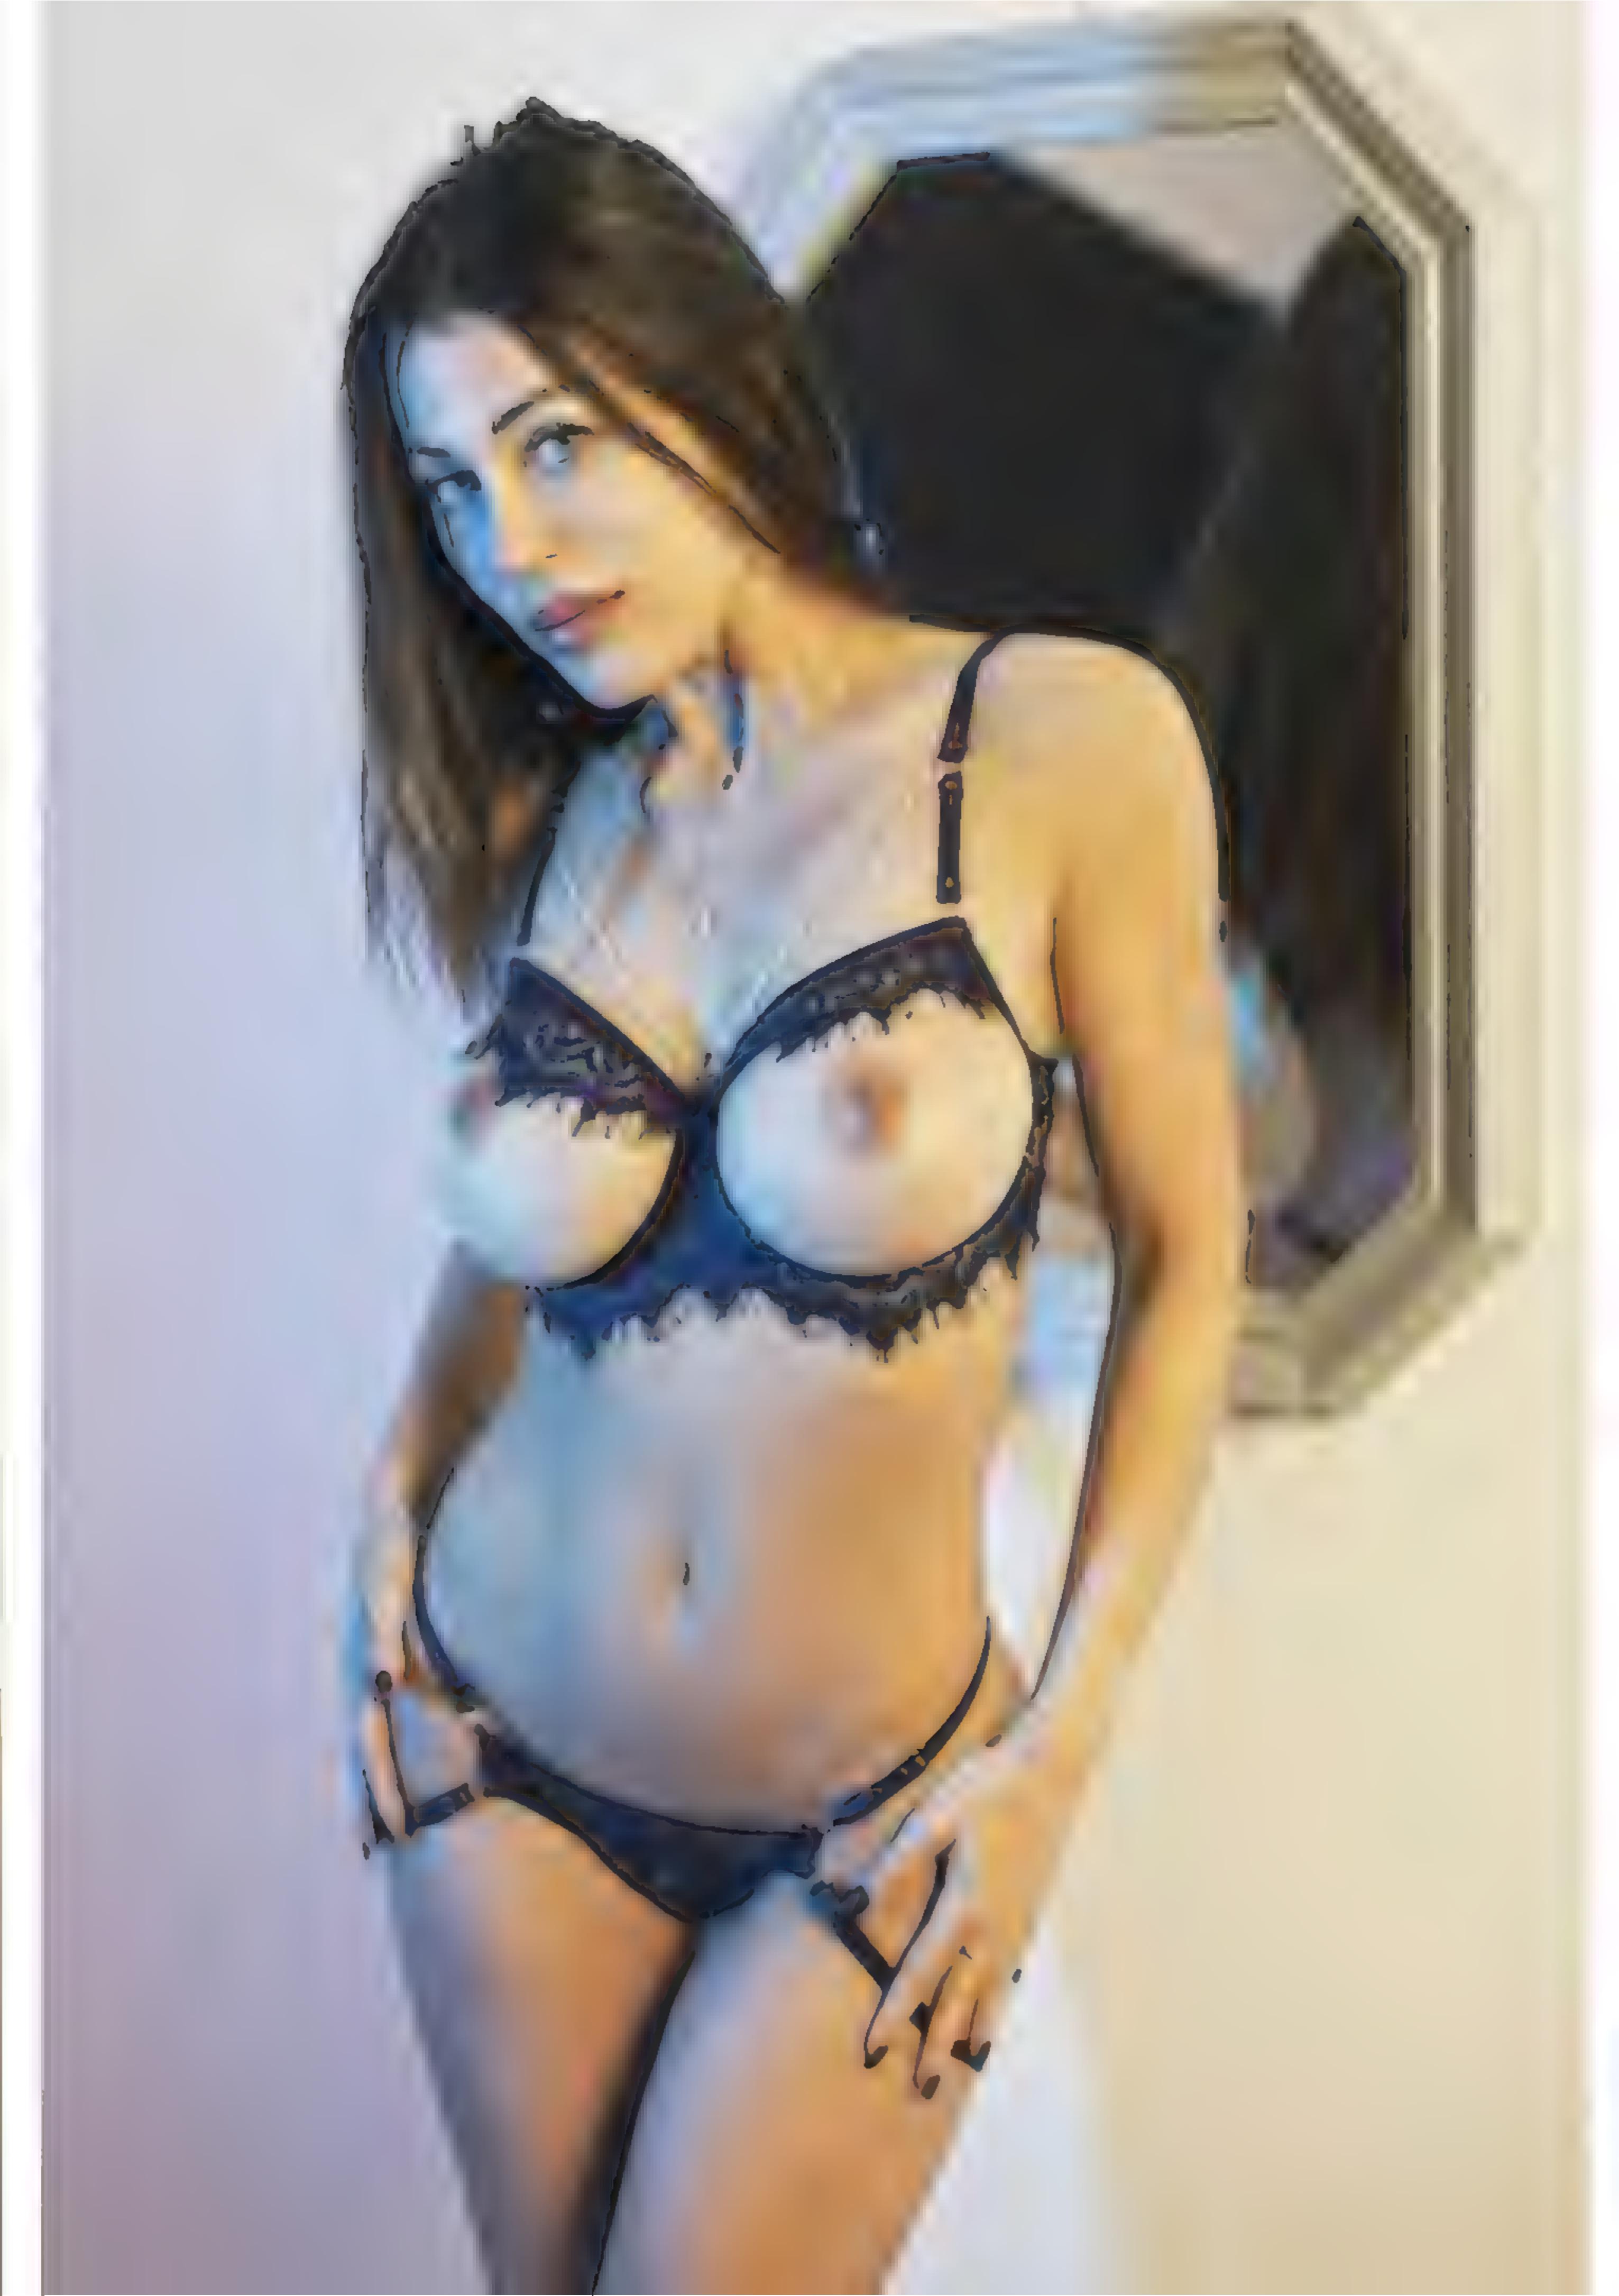

Absolutely, I have other plans for my working life, but I would like to continue taking shots from time to time because I like it and have fun doing it.

What is your sexiest feature?

I prefer the back and the bottom of the body (ass). I don't find my face particularly photogenic, and I would like to improve my expressiveness to convey more the eroticism, that instead is part of my personality.

How to Take a Stress-Free Holiday Road Trip

Holiday travel can be stressful, but it should be fun, too. Advance planning and proper car care can take much of the stress out of a holiday road trip and leaving you free to enjoy the ride.

Checklists for each aspect of the trip will help ensure that nothing important is left behind, and that you are safe and prepared in case of an emergency. When it's time for a holiday road trip, keep these tips in mind for smooth travels:

Check your ride: A complete car check before a road trip should include making sure the fluid levels are sufficient. Make sure wiper blades and the wiper mechanism itself is working properly. Check your lights, including brights, to be sure they are functional. And, last but not least, don't forget your tires. Tires are the connection between your car and the road, so be sure to examine the tread for signs of excess wear.

"Traction and tread are inextricably linked. The grooves in your tires are critical in helping to channel water away to allow the tire to grip the road," says Sarah Robinson, Michelin safety expert. "Making sure you're driving on tires with proper tread can be the difference between avoiding an accident and becoming part of it."

Be prepared: Equip your car with an emergency kit, including water, flashlight, blanket, jumper cables, extra windshield wiper fluid, cell phone charger, and emergency phone numbers for roadside assistance, as well as a contact person at your destination.

Map your route: Check your route in advance and, if possible, plan your trip for times with less traffic. If you are planning to use a map feature on your phone, use the voice component; if you don't have that, consult a paper map and get a sense of the route before you get behind the wheel.

Safety first: That means the driver focuses on driving. If you are the driver and need to check your phone, send a message, have a snack, or tend to a child or pet in the back seat, wait for a rest stop, or if necessary, pull over to the side of the road.

Watch the weather: Especially during winter holidays, knowing the weather in advance can help you plan to avoid a storm. If conditions are truly dangerous, the smart move is to postpone your trip until the weather improves.

6 Tips: How to stay active at home

(NewsUSA) — Even if you're not a regular exerciser, it's important to move your body. And as the COVID-19 pandemic continues, it's even more important to keep an active lifestyle. Here are six tips to help you stay healthy and energized.

Here are some tips to help you stay active at home:

Make a plan.

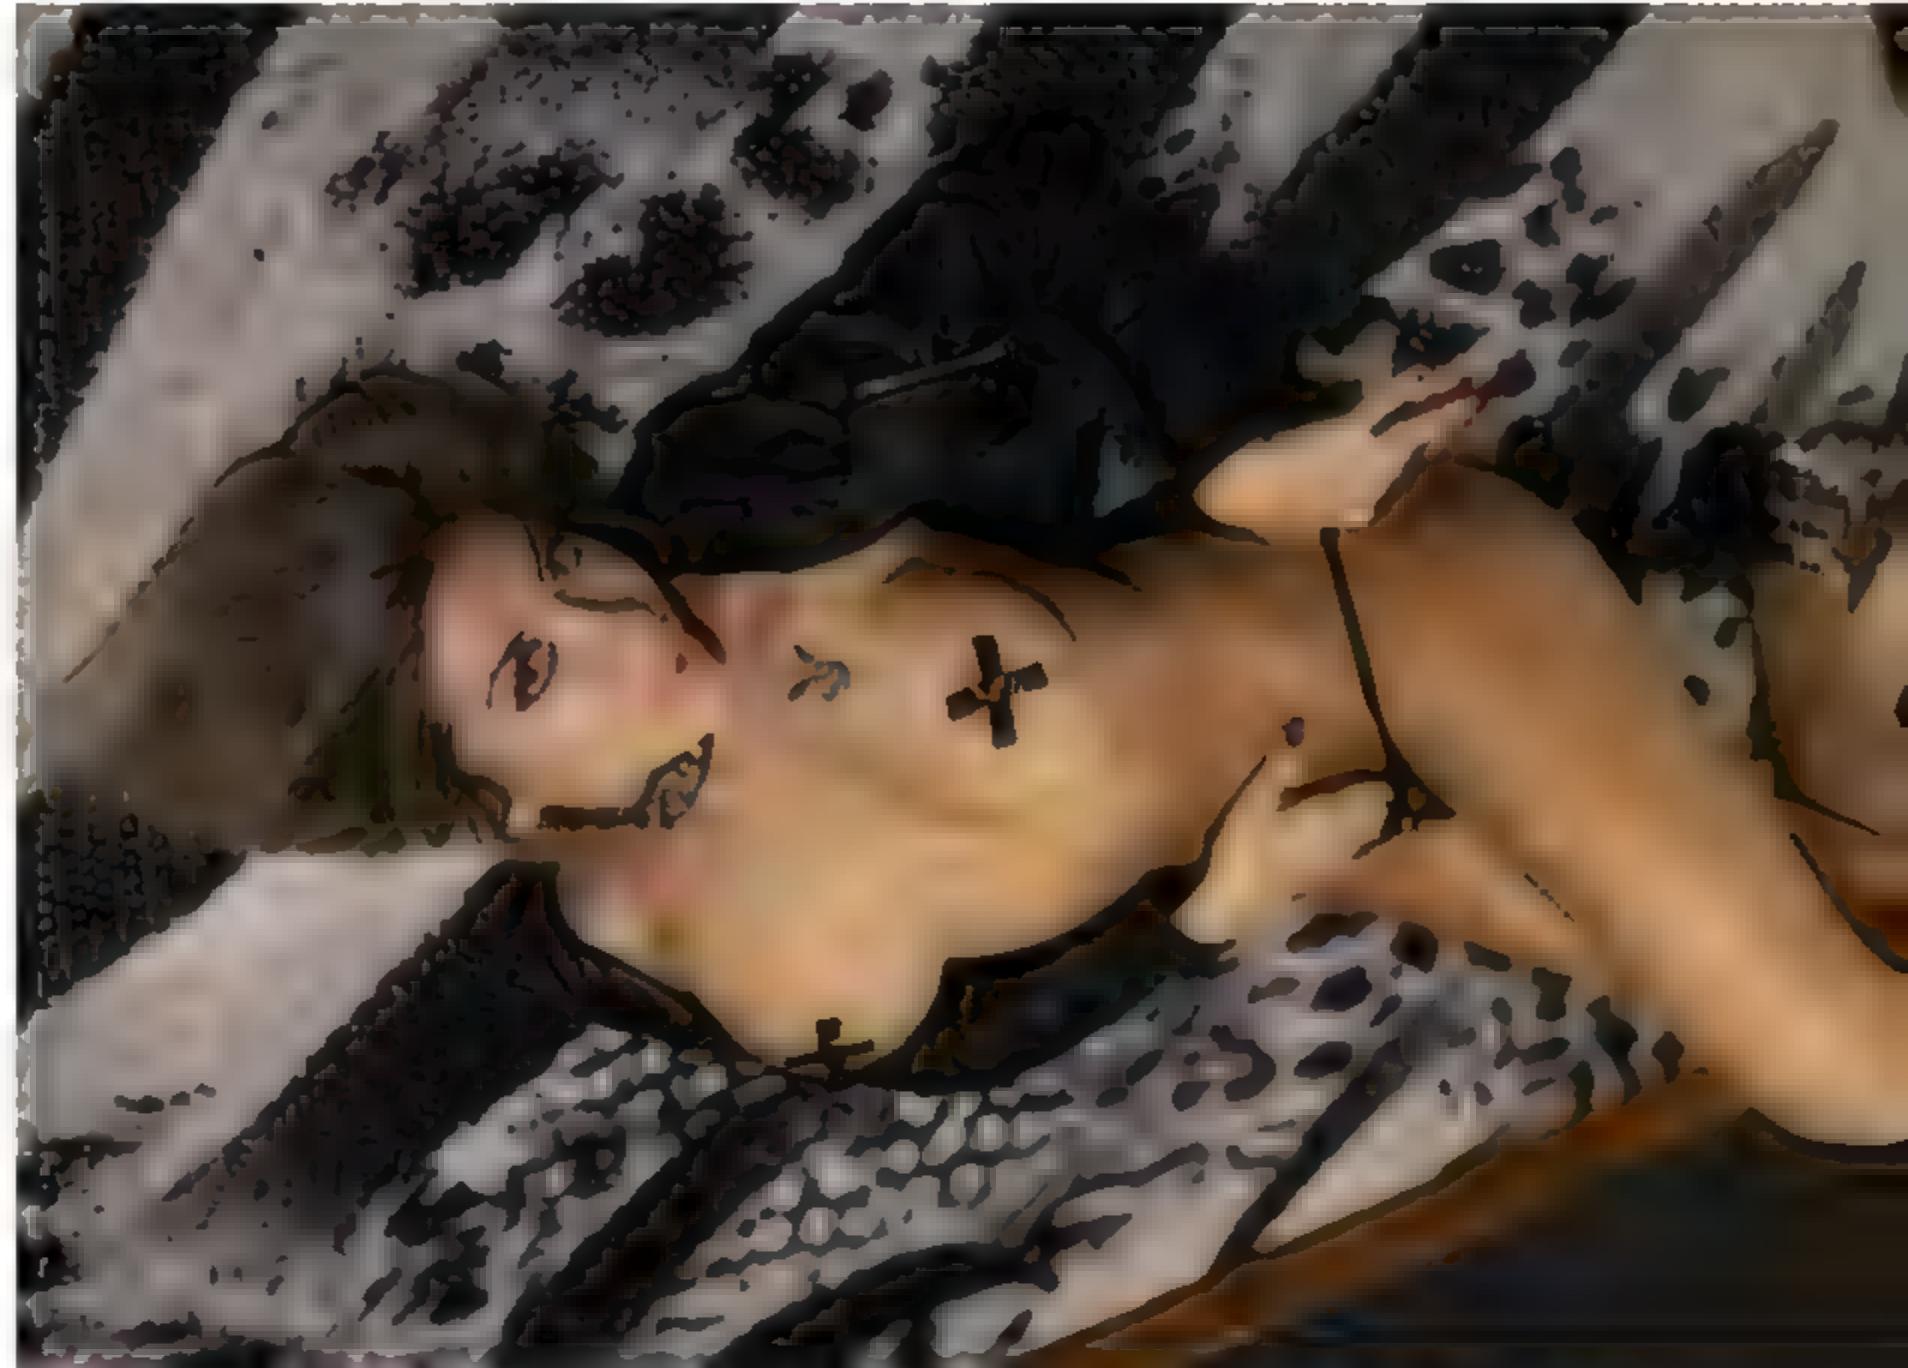

It's often easier to start a new habit if you have a plan. Set aside time each day for exercise or a walk. If you have a goal, like losing weight or getting stronger, set a timeline for reaching it. This will help you stay motivated and focused.

Try a meal delivery service.

Meal delivery services can be a great way to eat healthy without having to cook. Many offer a variety of meals, from salads to soups to sandwiches. Some even offer delivery options. It's a great way to save time and money while still eating well.

Take breaks from work.

It's important to take breaks from work, especially if you're working from home. Get up from your desk every hour or so to stretch, walk around, or do some light exercises. You might even consider taking a break to go for a walk or run. It's a great way to clear your mind and recharge.

Stream, stream, stream.

Streaming services like Netflix, Hulu, and Amazon Prime have a wide variety of shows and movies to choose from. It's a great way to pass the time and stay entertained. You can also use streaming services to learn new things, like cooking or fitness. There are many documentaries and instructional videos available online.

Go for a walk or run.

It's important to get outside and move your body. Even a short walk around the neighborhood can help you feel better. If you have access to a park or trail, consider going for a run or jog. It's a great way to clear your mind and recharge.

It's important to make time for yourself, even if you're busy. You can start by setting aside just 10 minutes a day to do something you enjoy. Whether it's reading a book, listening to music, or taking a bath, it's important to take care of your mental health. You'll feel better and more energized when you do.

Keep your mind active.

It's important to keep your mind active, even if you don't have time for a full workout. You can try puzzles, word games, or even a quick yoga session. These activities can help you stay sharp and focused, which can lead to better overall health.
